
Building AI research
FDD development Exp. 3, 4
Supervisory, MPC, RL control Exp. 5
Ambient-AI, LLM operators Exp. 5
Foundation-model data Exp. 4, 8
Virtual sensing Exp. 2
Metadata inference Exp. 8
Value of sensors Exp. 6
Research community
Benchmarks, competitions, reproducible studies Exp. 1–8
Virtual BAS
18 uses, 4 areas
safe to break
labelled
repeatable
fast
open, generic
Evidence
demonstrated
implemented
partial
Education and workforce
University courses
Operator and FM training
Commissioning practice
Emergency drills Exp. 6
Alarm management, HMI
Industry practice
Testing commercial FDD Exp. 4
Sequence verification Exp. 2, 3
BAS and analytics software
Cyber-physical security
Grid-interactive buildings, DR
